THE LUDARIUM · TEACH SHEET

Teach Terra Mystica in ten minutes

2 to 5 players · 60 to 150 minutes · Ages 12 and up

The goal: Have the most Victory points after six rounds. Everyone starts on 20.

On your turn

1. Income: Workers, Coins, Priests, and Power from your boards, Bonus card, and Favor tiles.
2. Actions: one per turn, in order, until everyone passes.
3. Transform and build: dig with Spades, then build a Dwelling on your Home terrain.
4. Upgrade: Dwelling to Trading house, then Temple or Stronghold. One Temple becomes the Sanctuary.
5. Also: Shipping, cheaper Spades, Priest to a cult, Power actions, Special actions.
6. Neighbors: when you build next to someone, they may take Power and pay points for it.
7. Pass: swap your Bonus card. First to pass starts next round.
8. End of round: cult bonuses from the Scoring tile, then 1 Coin on each unused Bonus card.

Three tips for your first game

1. Read all six Scoring tiles before you place a Dwelling, and plan around them.
2. Build near opponents: Trading houses cost less there, and you gain Power when they build.
3. Try not to end a round with Power in Bowl III. Spend it on a Power action or a conversion.

Setup

1. Board and Cult board in the middle. First game: use the rulebook's fixed factions and Dwellings.
2. Take your Faction board, buildings, Priests, Bridges, and Markers. Starting resources are on your board.
3. Markers: Shipping 0, Exchange at 3 Workers per Spade, score 20, all four cults on 0.
4. Move up on the cults your board shows. Put 12 Power in Bowls I and II as shown.
5. Lay out Scoring tiles for rounds 1 to 6. Game end token covers half of round 6.
6. Use Bonus cards equal to players plus 3. Lay out Favor tiles and the 10 Town tiles.
7. Place two Dwellings each: clockwise, then back counterclockwise. Last player picks a Bonus card first.

Scoring

- During play: the current Scoring tile, Favor tiles, Bonus cards when you pass, and Towns.
- Each cult track: 8, 4, and 2 points for first, second, and third.
- Biggest connected area: 18, 12, and 6 points.
- Leftovers: 1 point per 3 Coins after converting what you can.
- Ties split the points of the tied places, rounded down.

Game end: The game ends after the Action phase of round 6. There are no cult bonuses that round, then final scoring.
